To All Meeting Planners:

I highly recommend Dr. Dorie for a keynote, workshop or retreat! Her programs are ideal for women involved in business, health care, fitness, fashion, parenting—truly, every woman can benefit from Dr. Dorie's message...and men, too!

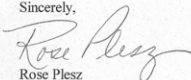

I attended one of Dr. Dorie's workshops, and after hearing her powerful message, I invited her to be the featured speaker at two events I helped coordinate. She customized her content beautifully to fit our specific needs, her delivery was incredible and the programs were a great success! I look forward to working with Dr. Dorie again soon.

I have also attended one of Dr. Dorie's full-day retreats and loved the interactive aspects of this program. Having struggled with my own weight issues in the past, I learned numerous techniques to help me stay on the path of health and happiness.

In my work and in my day-to-day life, I observe far too many people placing undue burdens on themselves with their worries about weight. I often wonder what would happen if these people could shift their energy from weight issues to more significant issues in their personal and professional lives. I believe productivity at the workplace is directly related to one's self esteem and when lacking, can directly affect the success of the company. Dr. Dorie guides women and men in this process, freeing them from weight worries and opening the door to life's many successes.

I have a motto, "When you look good, you feel good, when you feel good your attitude changes, and attitude is everything." Dr. Dorie helps people develop that winning attitude!

Sincerely,

Rose Plesz
